WORLD'S LEADING HIGH PERFORMANCE WORK BOOT SOCK

My wife gave me a pair of the Bootmate® socks. I can't thank her enough. In my work as a carpenter I have to wear safety shoes with a steel toe every day. The steel always hurts my toes and even more so when working on an uneven surface or if I have to bend down a lot. Also, when the weather is cold the steel gets really cold and its hard keeping warm. Now my toes are nicely protected by the soft pillows and the cold does not bother me anymore. As much as it pains me to admit when my wife is right, I had to call her on my first day of wearing Bootmate® and tell her that the Bootmate® socks are 'the saviours of my toes'. The guys at work are all getting themselves a pair'.

Brynjar O, Carpenter, Reykjavik, Iceland.

'These things are the best - my feet love 'em. I wear them for work everyday'.

Steve F, Warehouse Supervisor, Brighton, UK.

'Sceptical at first but now I'm a believer!'

Brian Weis, Builder, Mequon, USA.

'My foot felt really snug and secure within my boot. I really noticed the difference when putting on my standard sock the day after wearing Bootmate®. My foot felt like it was floating and bashing around within my shoe and I was really aware of my foot. While wearing Bootmate® my foot never entered my mind throughout the day'.

Benn K, Project Leader, Brisbane, Australia.

'Very comfortable, prefer to normal socks'.

N Ramji, Warehouse Operative, Egham, UK.

WEARING THE CORRECT SIZE BOOT:

Many people wear safety boots several sizes larger than their correct shoe size in an attempt to remove the discomfort associated with the steel toe cap digging into the foot. The protection provided by Bootmate® allows the correct size of safety boot to be worn. If the correct sized footwear is used the foot is less likely to move around in the boots significantly reducing potential damage to the end of the toes, the toenails and even the back of the heels. Bootmate® Safety Boot Socks provide working feet with all day comfort and protection.

Bootmate® Sizing information

Bootmate Size	UK Shoe Size
Small	UK 3 to 5
Medium	UK 6 to 8
Large	UK 9 to 11
